### DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

1. Claims 1-11, 13 and 14 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Bambara et al, U. S. Patent 6,316,512.

2. Claims are rejected for reasons of record. Applicant has argued that the addition of condensation catalysts to the claimed composition is not suggested by the reference, and, in fact, the reference teaches away from such addition. This argument has been considered, but is not found persuasive. Although the reference does state that at times catalysts are not needed as cited by applicant from column 5, the reference specifically teaches the option of using claimed condensation catalysts in column 4, lines 44-46. This teaching at the very least renders the claimed composition prima facie obvious. Claims remain, therefore, properly rejected under 35 USC 102/103.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
